

MOTOROLA

TWO-WAY RADIOS

Desktop Solutions

The complete desktop solution is available to users who need to set up their Professional Series mobile radio as a control or base station. Best utilised in conjunction with a desktop microphone, the mobile radio can be securely mounted in a tray and used for dispatch operations.

- **Desktop Tray with Speaker:**
Provides increased volume when receiving in high noise environments.
Part number GLN7326
- **Desktop Tray without Speaker:**
Uses the radio's internal speaker or an external speaker.
Part number GLN7318
- **Desktop Power Supply**
Part number GPN6145 1-25 Watts (CE marked)
HPN4002 1-25 Watts (not CE approved)
HPN4001 25-45 Watts (not CE approved)
- **Power Cords for Desktop Power Supplies**
Part number NTN7374 Euro plug (230 V)
NTN7375 UK plug (230 V)
NTN7373 US plug (110 V)

In-Vehicle Accessory Kits

These in-vehicle accessories cater for requirements specific to professionals working in vehicles for extended periods. They enable users to operate their mobile radios with remote press to talk facilities and customise their two-way communications to suit various market applications.

- **Visor mounted microphone:**
Placed on the sun-visor or headlining above the driver, it is used instead of a hand held microphone. Use with any of the following: emergency footswitch, footswitch PTT, gooseneck PTT or push button PTT.
Part number MDRMN4027
- **Emergency Footswitch:**
Easily and secretly triggers an emergency signal that is sent to the base station.
Part number RLN4836
- **Footswitch Push-to-Talk:**
Remotely activates the PTT function while using an external microphone.
Part number RLN4856
- **Gooseneck Push-to-Talk:**
Placed on the gear stick or the steering wheel column, it remotely activates the PTT in the microphone.
Part number RLN4858
- **Push Button Push-to-Talk:**
Standard PTT button.
Part number RLN4857
